**ELITE**

CANOPY

## Live the LIFESTYLE you deserve, without compromise

*The ELITE canopy is our premium bespoke model designed especially to suit your 4x4 dual cab. At a glance, the ELITE canopy mounted on the vehicle looks as if it was built with the car and rolled off the production line with its sleek level roof line and matching design features. Upon unlocking the sturdy framed doors with the click of your vehicle's FOB key, you will notice a host of other important features making the ELITE the most secure and best insulated canopy on the market.*

### **FIBERGLASS CONSTRUCTION**

Fiberglass is a very strong and lightweight material with the ability to be formed into complex shapes. This allows us to manufacture a strong, lightweight canopy without compromising on style. Using many layers of fiberglass means we can strengthen the canopy, at the same time creating an unrivalled level of insulation so that your gear, pets, fridge etc stay cool all year round.

*There is no substitute for quality and the **ELITE** canopy is no exception*

### ***FULLY FRAMED DOORS***

One of the many reasons we buy a canopy is for security right? So why compromise on security with a canopy that only has glass lift up windows? Our ELITE canopy features 3 fully framed lift up doors ensuring your vehicle's security is never compromised. Complemented with large opening for ultimate access, it's a winner all round. If you do unfortunately break a door glass, having a full door frame enables the glass section to be covered, whilst maintaining a functioning door until a new replacement arrives from our fantastic service team.

### ***FULL CENTRAL LOCKING***

Lock your vehicle and canopy together without the hassle of extra keys and individual locked handles. Our central locking is operational on all 3 doors and is seamlessly integrated into your vehicles existing central locking system, meaning no more extra sets of keys or bulking remotes. Another unexpected benefit of a comprehensive central locking is that the canopy rear door seals against your tailgate, effectively making that central locked also. You'll never accidentally leave your canopy unlocked again with the one and only ELITE.

## Create a space of exceptional functionality within your vehicle

### **INTEGRATED DOOR ALARM**

The ELITE canopy is the first in Australia to feature an integrated door alarm system, reinforcing this bespoke canopy as the most secure canopy available.

### **REINFORCED ROOF (up to 110 kg capacity)**

Need to carry a load on top? The ELITE canopy comes with standard roof rails that are rated to 85kgs, however they are able to be removed through the interior lining if required. Once combined with a suitable track or cross bars system, the ELITE is rated to 110kg dynamic or 400kg static.

### **INSULATED INTERIOR LINING**

Not only does the premium suspended roof lining give you a warm, luxurious feel, it also provides another element of insulation to your canopy keeping thermo sensitive equipment and the furry family members cool in all weather conditions.

### **AUTOMATIC LIGHTING**

Whether you are working from the rear or touring with the kids you will instantly have light the second any of the 3 doors are opened. Utilising a hard wired LED light, changing batteries will become a thing of the past making your future brighter than ever!

## *Just when you thought the features stopped there*

### ***REINFORCED STEEL HANDLES***

These robust steel handles in black blend perfectly into the canopy design while adding additional security to every door. The lock covers ensure fault free use in the rare event in which a key is required.

### ***TINTED SAFETY GLASS***

All windows in the ELITE canopy are tinted safety glass with double tinted side windows to keep out unwanted prying eyes. The additional film also works to hold the glass together in the event of a breakage.

### ***50/50 SLIDING BULKHEAD WINDOW***

This classic bulkhead window design allows the ability to positively pressurize your canopy tub area without compromising security. Added benefits include easy access for cleaning the vehicle rear window and ventilation for pets and equipment.

### ***REAR DEMISTER***

The rear window of the ELITE comes standard with a heated demister that activates from your vehicles original demister button for clear vision on the frostiest mornings.

### ***LED BRAKE LIGHT***

With your safety in mind, the ELITE features a super bright LED brake light built directly into the stylish rear spoiler.

### ***LEVEL ROOF LINE***

Our signature level roof line not only maximises the aesthetic integration of our canopy to your vehicle, it also allows for the user to have the option of level roof racks all the way across the vehicle.

## *The ELITE canopy makes quality a standard feature*

**INTERNAL RELEASE** - Exit your canopy from the inside with a handy internal release, making camping easy.

**UNIQUE DRAINAGE** - Our drainage system is designed to cope with the harsh Australian weather conditions.

**STAINLESS HINGES** - Made tough with longevity in mind.

**C CLAMP SYSTEM** - Keep your lid on with our C-clamp style fittings and additional adjustment clamps.

**MATCHING ROOF FLUTES** - Our vehicle integrated designs even incorporate the roof!

**TOUCH UP PAINT** - Allowing you to take care of lifes little mishaps.

**COURTESY UMBRELLA**- Keep your ute covered with the ELITE and your head covered with a PJ's umbrella.

**SPARE KEYS** - Just in case you get locked out and your vehicle battery goes flat.

### **SERVICE**

At PJ's 4x4, we pride ourselves on providing a premium level of service, this is why we keep stock of all parts, all the time.

### **WARRANTY**

3 year structural Warranty - 2 year paint warranty - 1 year parts warranty

**PRO** *lift*

## Tailgate Assist

ProLift tailgate assist is the latest must have item for every 4x4 utility owner. This patented design will make opening and closing the tailgate on your utility simple. As anyone with a utility knows, tailgates are heavy and cumbersome — with the all new ProLift tailgate assist you will be able to watch your tailgate softly glide open giving you practically a hands free operation. When finished, you'll be able to close your tailgate with a single finger! Make the next accessory for ute a ProLift Tailgate Assist.

**BEDRUG**  
NEXT GENERATION BEDLINERS

This is the most innovative and unique ute tub liner available today. You get the look and comfort of carpet, in an ultra-tough 100% polypropylene (essentially plastic) product. That means not only will it protect your ute tub from impact dings and damage, it will stand up to the harshest conditions you can throw at it: from gravel to battery acid, while still protecting your precious cargo and your knees!

## Accessories you say? Ask about our hot products below

The iDrive throttle controller is a small, yet amazing device that effectively gives you the ability to directly control the response from your accelerator pedal. As many vehicles use fly by wire throttle technology, they also suffer from accelerator lag which can be completely eliminated with an iDRIVE. From ECO MODE for the economically minded, AUTO MODE for the no fuss types and ULTIMATE MODE for the thrill seekers, the iDrive is bound to fulfil your needs. In fact if it doesn't, just return with our 30 day money back guarantee.

## TOPMATT

The TopMatt is a premium foam rubber tub liner mat that has been cut perfectly to suit the size of your ute tub. Conforming perfectly around your wheel arches with a tub liner installed. The TopMatt makes climbing in and out of the truck bed comfortable and easy on the knees. This lightweight bed liner has a non-slip top which means your cargo will no longer slide around in the back of the tub whilst also adding an element of impact resistance and acoustic insulation.

## **CARGO BARS- Universal Fitting**

These fantastic and versatile Cargo Bars are made from lightweight extruded aluminium with a 90kg load rating! Our roof racks are designed to be fitted to vehicles, canopies and ute lids with pre-existing longitudinal roof or load rails and boast a massive 1410mm width while most competitor products only offer 1200mm width. Fully lockable with a set of keys, the cargo bars are the perfect next addition to your vehicle.
